Dear Mr. Deibert:

Request for Information (RFI) Process #84084-18-0093

This letter is a follow up to my letter to you dated June 27, 2018. As stated previously, the purpose of RFI Process #84084-18-0093 was to request information from potential third-party service providers about tools that could assist the NEB in meeting its obligation to identify and manage security risks.

Upon considering its security requirements and the responses received in the RFI Process, the National Energy Board has decided not to pursue a contract process (request for proposals) at this time.

Yours sincerely,

A handwritten signature in black ink that reads "Mark Power".
